## Darling Harbour Night Shoot

We met at 2pm for a session in the Chinese Gardens taking pattern shots in the fore-ground area waiting for late arrivals. Inside the gardens we took photos of the people, the plants, the carp the waterfalls. You need mind photos to see the serenity of sitting behind the willows in a tea house with the noise muted as it wasn't very photogenic. At 4:30 we met up with Richard for the night session, taking photos of the flowers and the water features we moved slowly down to the maritime museum, stopping for a bite to eat at Harbour-side. The late afternoon light was perfect for the reflections in museum windows and for the lighthouse and Pyrmont Bridge. We went up to the Bridge and watched it opening and took colourful pictures of the sky against the city buildings, then back down to harbour side for more city lights while there was still light in the sky. We called it a night at 8:10 after a long session enjoyed by all. Photos are on the web site and there will be more when available..

## Sydney International Slide Show

Thanks to Len Brown for organising the show of the slides entered in the Sydney International Photographic Competition. There were slides from all over the world and one of our own members had a slide on view. Congratulations Nic.

## Top Shot Competition

Top Shot is the Camera Club Federations photographic competition. It could be considered the next step up in photographic competition from club entries. Closing date for Top shot this year is 15th April. Lets see if we can get together a selection of entries from our club

## Updated Program

There is an updated program on the web for any one to download. It hasn't been completed yet but will be in the near future when a new one will be printed out. In the meantime Jen will have a copy for those who do not have access to the web - to see tonight.

## Next Set Subjects

Our next set subject is portraits -you should have your entries in for this already.

It is now time to get ready for Creative on the 15th June - here is a definition. "Hide yourself in the darkroom, dust off the computer or just get out a pair of scissors and show us what you can do when your creative juices go wild. Our only stipulation is that it must have major photographic content"

## Next Outing

Our next outing is the combined Camera Rally and Mt Wilson Autumn Shoot. You will need a 35mm film camera for the Camera Rally, so those shooting only digital will have to dust off their old cameras or those who do not have a film camera let us know and we may be able to organise one for you. It may only be a compact, but will allow you to join in the fun and remember compacts can take great pictures. We will be meeting at 8:30am at Richmond on May 1<sup>st</sup>. More details will be available at the meetings.

## What's New on the Web
