Photoshop Demo

We have a copy of the training manual for Photoshop version 5 for members to borrow. Although Photoshop 5 is an old version the basics are still there. Joe has demo versions of Photoshop 5 which include the pictures for the tutorials and you can follow along with the them, but beware the demo version only lasts 30 days.

I would like to thank Simon for the Photoshop demo he gave. He said if you have any questions contact him at :

Model Night

Model Night seems a long way off at the end of August, but it is really coming up fast. If anyone knows a model who would like to do this for us in exchange for photographs or small (very small) remuneration please let one of the committee know. The models can be male or female

New Item on the program

We have a new item on the program in November called Peoples Assesment, This is where you can bring one or two photographs (any size, colour or b&W, manipulated or non manipulated.) and it is open for comment by the whole group. There will be no scores -this is not a competition it is open discussion. If it is successful it will be placed as a regular feature on the program.

To get the ball rolling we have a subject of water. We expect the frame to contain at least 50 per cent water – No! Not a soggy photograph – A photograph where the content is least 50% water.

News from the FCC

Nic is now the new communications officer for the FCC – we will hear more about what is happening now.
