First Set Subject for 2006

Our first set subject of the year is **RED** on **15th March 2006**. How do you describe RED – is it a colour- is it a concept. This is our creative subject for this year. Colour users should have no trouble, but I am really looking forward to the B&W entries. Just remember infrared means below red (not red) and cannot be included as a red subject.

First Outing for 2006

Night Shoot - Blacktown Show Sat 11th March . A night of whirling sights and sound. We will be starting at dusk to capture the light in the sky.

Farewell to Amy

Amy is leaving us for southern climes. She is moving to Melbourne to be with her partner. We wish her the best of luck in the future and hopes she visits whenever she is back in Sydney.
